

PATIENT & DOCTOR WEB PORTAL

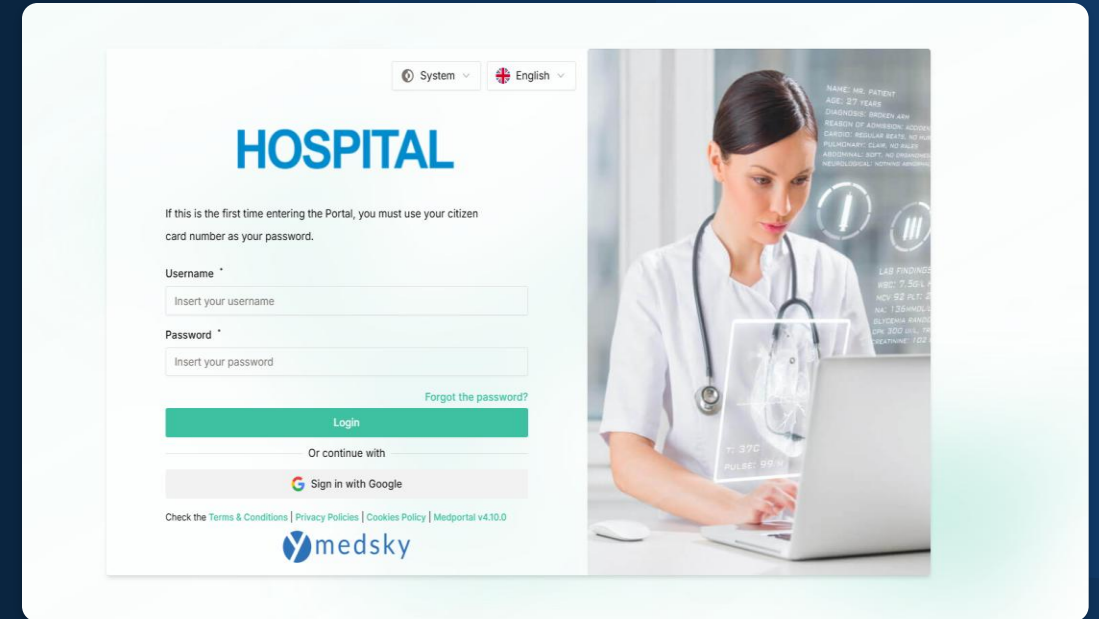

medportal

Access, view and share **exams & reports**

Universal Viewer · Patients · Doctors · Cloud or On-Premise

Certification

ISO 13485:2016 CERTIFIED

01

One platform. Every exam. Every device.

Medportal is a fully web-based platform that connects patients, doctors and hospitals through a single secure portal. All radiology, cardiology and lab results in one place — accessible from any browser, on any device.

100%**Web-based**

Zero footprint, any browser

DICOM + HL7 + FHIR**Interoperable**

Connect any PACS, RIS or HIS

ISO 13485**Certified**

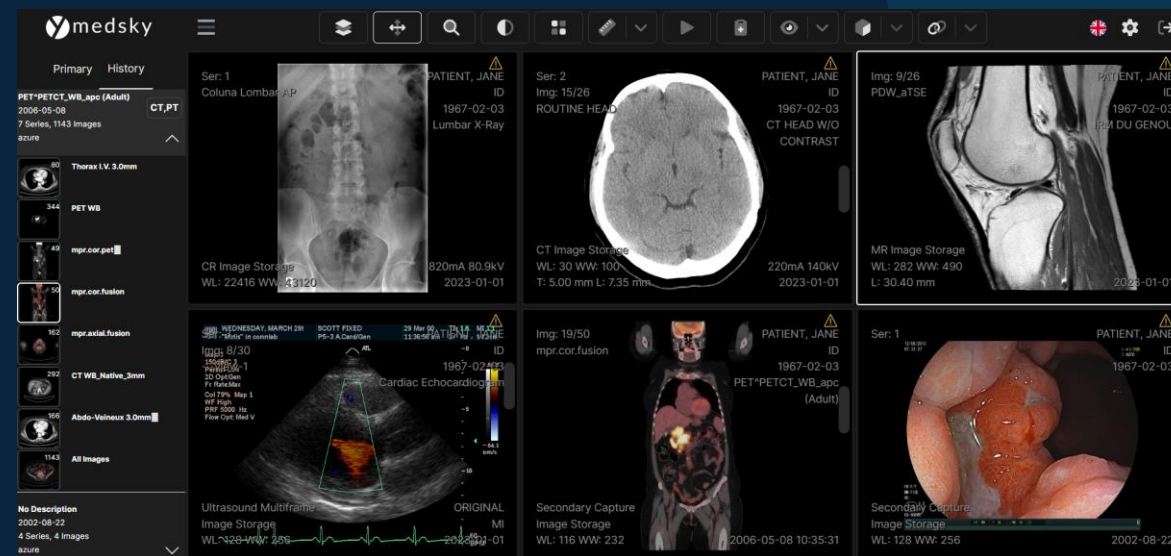

MDR & ISO 27001 ongoing

**Patients****Doctors****Universal Viewer****Cloud or On-Prem****29 Countries**

02

DICOM Zero-Footprint Universal Viewer

A single viewer for every modality. No install. Diagnostic-grade workflow on any browser.

MIP / MPR & 3D

Advanced reconstruction and volumetric rendering

Series Fusion

Multi-modality overlay (PET / CT) — Q2 2026

DICOM ECG 12-Lead

View and analyze ECG studies natively

Image Tools

Bright, contrast, zoom, pan, ruler, measurements

Secure Sharing

Time-bound share with external referring doctors

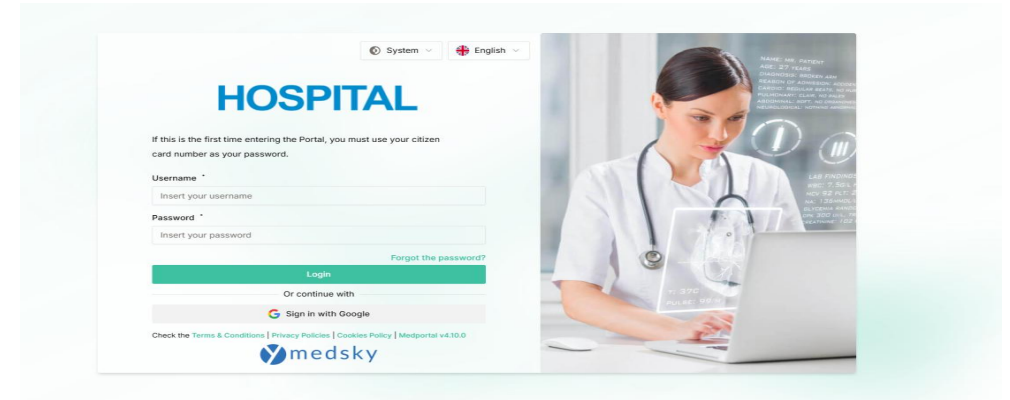

Any Device

Responsive UI — desktop, tablet, smartphone

03

Built for **patients**. Trusted by **doctors**.

A unified portal where patients access their results and doctors review studies — securely, from anywhere.

PATIENTS

Take control of your health

- ✓ Access exams & reports anytime, anywhere
- ✓ Email, SMS and WhatsApp notifications
- ✓ Download original DICOM to PC or USB
- ✓ Share results securely with any doctor
- ✓ Multi-language interface

DOCTORS

Faster, smarter diagnosis

- ✓ Universal Viewer — radiology, ECG, lab, video
- ✓ Centralized history across multi-site facilities
- ✓ Quick search by patient, exam, or accession
- ✓ Share studies with referring colleagues
- ✓ Third-party AI algorithm integration

04

Built for **performance**.

Built for reliability.

Cloud or On-Prem

Azure, AWS, GCP — native blob storage support

Secure API Integration

Connect to EMR, RIS, HIS or external portals

DICOM QR & QIDO/WADO

Integrate with any PACS, VNA or modality

Security First

MFA, RBAC, SSL/TLS, OAuth 2.0, audit logs

DICOM Worklist

Generate worklists for your imaging equipment

AI Ready

Plug in third-party AI algorithms seamlessly

05

Continuous innovation.

Our roadmap reflects what's coming next — from advanced visualization to regulatory expansion.

AVAILABLE TODAY	PHASE 1 Q2 2026	PHASE 2 Q3 2026	ONGOING 2026 — 2027
- DICOM Universal Viewer - MIP / MPR / 3D Reconstruction - DICOM ECG 12-Lead Viewer - Email / SMS / WhatsApp - Cloud-native (Azure / AWS / GCP) - Pay-per-study model	- Series Fusion (PET / CT) - Cine play with speed control - Virtual series — key images	- New Exams Page - Patient & Exam creation flow - Unified study experience	- MDR Certification - Diagnostic-grade Viewer - ISO 27001 Certification

Continuous innovation · Built for performance · Built for reliability

Sell more.
Deploy faster.
Differentiate with **medportal**.
